The three-hour written inspection examination is "open book" and consists of approximately 80 multiple choice questions. The one-hour plans reading examination consists of approximately 20 questions and is designed to test the examinee's ability to read and understand engineering drawings. The minimum passing grade for each examination is 70%.

Associate Concrete Construction Special Inspector

ACI will grant certification to those applicants who meet the Field Technician prerequisite and pass both written examinations. Individuals with Associate certification can upgrade to full Inspector status upon submittal and approval of sufficient education/work experience. Recertification is necessary every five (5) years, and requires successful completion of the written examinations.
